PROFILE

As a proficient skilled Frontend Developer, I am seeking a challenging role where I can apply my expertise in HTML, CSS, JavaScript, React.JS, Next.JS, Technical Support, and other related technologies to create visually stunning and highly functional websites.

PROFESSIONAL EXPERIENCE

Frontend Developer, *King Cabana*   2021 – 2023
- Collaborate with cross-functional teams to design and develop responsive and user-friendly websites.
- Implemented and optimized local storage, JSON server, and other UI components solution.
- Create and maintain reusable UI components using React.
- Write clean, maintainable, and scalable code using HTML, CSS, React.JS, and JavaScript.
- Integrate endpoints from the front end to the back end.
- I developed new features and improved the website's design and usability.

Tech Stack: React.JS, JavaScript, HTML, and Styled-Component CSS.

Frontend Engineer, *Edtify*   2021 – 2022
- Designing, developing, and implementing web applications using Next.js and related front-end technologies, such as React, HTML, CSS, and JavaScript
- Collaborating with cross-functional teams, including designers, front-end developers, and product managers, to gather and refine requirements, ensuring alignment with overall business goals and client needs
- Writing clean, maintainable, and well-structured code, adhering to best practices and industry standards for Next.js development
- Optimizing web applications for maximum performance, compatibility, and responsiveness across various platforms and devices
- Performing thorough testing and debugging of Next.js applications to ensure optimal functionality, reliability, and security
- Developing and maintaining technical documentation, including design documents, user guides, and API specifications, to effectively communicate complex concepts to both technical and non-technical stakeholders
- Staying up to date with the latest advancements in Next.js, React, and front-end web development technologies, and identifying opportunities to enhance existing applications or create new ones
- Providing technical mentorship and guidance to junior team members
- **Tech Stack:** Next.Js, Typescript, HTML, and CSS

React Developer (Freelancer), *Dream Project*   2020 – 2021
- Meeting with the development team to discuss user interface ideas and applications.
- Writing application interface codes using JavaScript following react.js workflows.

- Monitoring and improving front-end performance.
Tech Stack: React.JS, JavaScript, HTML, and Tailwind CSS

Frontend Developer (Freelancer), *Sendchamp*   2019 – 2020
- Implement SEO best practices to improve website visibility and conduct website testing and bug fixing.
- Optimize website performance by minimizing page load times and reducing HTTP requests.
- Connection of GitHub branch to other developed code and solved the merge conflict code base.
- **Tech Stack:** React.JS, JavaScript, HTML, and CSS

Technical Support, *Incrova*   2018 – 2019
- Installation & configuration of a company's computer hardware operating systems and applications.
- Maintenance and monitoring of computer networks and systems.
- Logging the queries of customers and employees.
- Analysis of call logs in order to discover any underlying issues or trends.
- Diagnosing and solving hardware or software faults.
- Testing and evaluating new technology.
- Performing electrical safety checks on the company's computer equipment.
- Responding to call-outs in a timely fashion.
- Following instructions, either written or in diagram form, in order to set up a system or fix a fault.
